 ES REPELENTE ULTRASONICO DE ROEDORES E INSECTOS

Rid your home of unwanted pests. The C3492 emits greater sound pressure and automatic
 attack wave variation, making this the most effective, user and environmentally-friendly way
 to rid your home of rodents and insects. While harmless to humans and pets, the ultrasonic
 waves attack the auditory and nervous system of pests, causing them to abandon their food
 source and shelter.

range: 370 ~ 465m² (unobstructed space) • frequency range: 30000 to 65000Hz • sound
 pressure level: 2 x 130dB • emission angle: 260° • power supply: 9VDC/200mA (adapter
 incl.) • dimensions: 120 x 90 x 70mm • weight: 160g
